DETAILED ACTION

Claim Objections

Claims 4-8 are objected to because of the following informalities: a period is used in line 2 of each of these claims. Change the period to a comma. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Lu (6,143,366).

As to **claim 1**, Lu teaches a method of making a ceramic film, as detailed in example 2, column 8, lines 25-48. A complex oxide raw material is crystallized using a heat treatment, pressure above 2 atm and oxygen volume of 10% or less. The cited example utilizes ammonia vapor which is 0% oxygen volume.

Allowable Subject Matter

Claims 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 9 is dependent upon claim 8.
